

ASR Series

ASR 2x14w CS

The ASR Series from Patina™ has been designed for the commercial and retail environments. An intelligent optically efficient range of luminaires for new build and retrofit applications. The ASR series will accommodate a multitude of lamp and ballast options to optimise performance. The ASR series will provide superior vertical illumination in conjunction with UV-stabilised Patina™ Deglaring LZV Prism material.

Utilizing Patina's *Intallect control system further energy saving enhancements* can be achieved through daylight saving/ occupancy control and unique *Intallect* programs while also in conjunction with optional integrated controls, provide energy savings in excess of 70% in most cases.

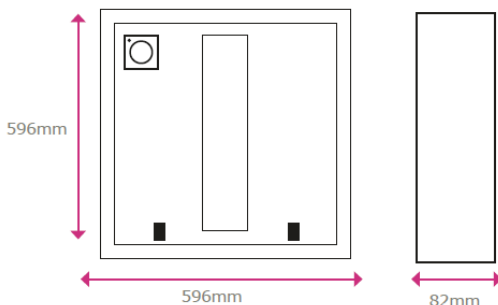

Features ...

- Material: Zintec steel powder-coated
- Numerous lamp, ballast and body styles available.
- Dual Installation: All fittings can be recessed mounted into exposed T grid ceilings in 1200mm x 600mm & 600mm x 600mm configurations **or** can be surface mounted – no separate order code required.
- Optical integrated Dali programmable sensor providing daylight dimming and/or occupancy control
- Reflectors: patented design in Alanod Miro 5 material
- Easy installation, luminaire complete with 4 pole Wago Winsta plug and socket
- Diffusers: UV-stabilised Patina™ Deglaring LZV Prism material
- CS option (model shown) fitted with integrated occupancy/daylight dimming sensor, delivers the most energy efficient system available.
- Photometrics available on request
